

Privacy Policy for CentroidCalculator Fusion 360 Add-In

Effective Date: June 25, 2025

Publisher: Automated Viking LLC

Automated Viking LLC ("we," "us," or "our") is committed to protecting your privacy. This Privacy Policy explains how the CentroidCalculator Fusion 360 add-in ("the App") collects, uses, shares, and manages your data. By using the App, you agree to the terms outlined below.

1. Data Collection and Use

The App collects minimal data to calculate centroids for pockets and closed chains in 2D Adaptive operations within Autodesk Fusion 360's CAM workspace. Specifically:

- **Log Files:** The App generates two files stored locally on your device:
 - `attempt_centroid.log`: Contains timestamps, operational details (e.g., centroid calculations, errors), and debugging information.
 - `centroid_results.txt`: Records centroid coordinates (X, Y, Z) in centimeters and inches for each pocket or chain.
- **Storage Location:** Files are saved in the App's installation directory (e.g., where `CentroidCalculatorAddIn.py` is located) or the system's temporary directory (e.g., `%TEMP%\attempt_centroid.log` on Windows) if permissions are restricted.
- **Purpose:** These files track centroid calculations, provide debugging insights, and allow users to review results for toolpath planning or fixture design. No personally identifiable information (PII) is collected, as data is limited to geometric and operational metadata (e.g., coordinates, edge data).
- **Collection Method:** Data is automatically generated during App usage and stored locally. The App does not access Autodesk account details, user IDs, or other PII from Fusion 360.

2. Data Sharing with Third Parties

The App does not share any data with third parties, including analytics tools, advertising networks, third-party SDKs, or affiliates of Automated Viking LLC. Log and text files remain on your device and are not transmitted externally. As no third-party sharing occurs, there are no third-party data protection obligations.

3. Data Retention and Deletion

- **Retention:** Log and text files (attempt_centroid.log, centroid_results.txt) are retained indefinitely on your device unless manually deleted. They are stored in the App's directory or the system's temporary directory.
- **Automatic Deletion:** Files in the temporary directory may be removed by the operating system's cleanup processes. Files in the App's directory persist until the App is uninstalled or manually deleted.
- **Manual Deletion:** You can delete these files at any time by navigating to the App's directory (or temporary directory) and removing attempt_centroid.log and centroid_results.txt. Uninstalling the App via Fusion 360's Scripts and Add-Ins dialog removes files in the App's directory but not those in the temporary directory.

4. Revoking Consent and Requesting Data Deletion

- **Revoking Consent:** As the App collects no PII and operates locally, there is no ongoing data collection requiring consent beyond App usage. To stop data collection, cease using the App or uninstall it via Fusion 360's Scripts and Add-Ins dialog.
- **Data Deletion:** To delete collected data, manually remove attempt_centroid.log and centroid_results.txt from the App's directory or temporary directory. Locate the App's directory via Fusion 360's Scripts and Add-Ins dialog or check the temporary directory (e.g., %TEMP% on Windows, /tmp on macOS).
- **Contact Us:** For assistance with data deletion or questions, contact Automated Viking LLC at privacy@automatedviking.com. Include details of your request, and we will respond within 30 days.

5. Accessing the Privacy Policy

This Privacy Policy is available:

- In the Autodesk App Store description page for CentroidCalculator.
- Within the App via a dedicated command (accessible in the CAM workspace's Tools tab under the Adaptive Centroid Calculator panel, labeled "View Privacy Policy").
- On our website: <https://www.automatedviking.com/centroidcalculatorinfo> .

6. Changes to This Policy

We may update this Privacy Policy to reflect changes in App functionality or legal requirements. The updated policy will be posted on the Autodesk App Store and within the App, with the new effective date. Continued use of the App constitutes acceptance of the revised policy.

7. Contact Information

For questions or concerns about this Privacy Policy, contact Automated Viking LLC at privacy@automatedviking.com.

This Privacy Policy ensures transparency in how CentroidCalculator handles your data. We prioritize your trust and data security.
